## 246 VERSUS

### "Better to belong to some than to all." A. Sapkowski

Versus defies mediocrity – it is unique, original. Beautiful, eye-catching design goes hand in hand with excellent nautical parameters. Thanks to its construction and special emphasis on safety aspects, the yacht is the perfect sailing cruiser for the family. It is perfect for sailing on the lake and at sea, even in difficult weather conditions. Thanks to the ergonomic solutions in the open-plan cabin design, it provides each cruise participant with space for themselves. We made sure that it was not only safe and dynamic, but also easy to drive. Versus is a yacht that you will recognize from afar for its modern silhouette, with an inverted stem and a tasteful, slender shape.
